

Environmental Policy

Versão 1.1/2018

Environmental Policy

“One Moving is a national and international mobility and transportation solutions company.

We offer complete logistic services for residential & offices moves, transportation of pets, fine arts transportation and fairs and events for Brazil and the whole world. We are committed to a sustainable future and to improving the social, economic and environmental well being of the Community.”

Wesley Thomé, CEO of One Moving

Below you can find the environmental policies practiced by One Moving.

Important notes:

- All ONE MOVING employees are informed about content of this document in their initial training.
- ALL One Moving business partners are informed about content of this document before start any business with One Moving.

Adoption of recycling processes

- Separation of all debris from the delivery services (import) and subsequent sale to recycling companies. Revenue from this sale is solely and exclusively intended to subsidize operating employees and encourage the recycling process.

Actions aimed at reducing energy consumption

- Planning activities to avoid peak consumption hours (5:00 p.m. to 10:00 p.m.)
- Use of solar energy so that it becomes increasingly necessary to use artificial lighting
- Central air conditioning protected from sunlight
- Use of led light
- Recurrent equipment maintenance

Actions to avoid wasting water, encouraging its rational consumption

- Training and awareness of the team on the importance of the conscious use of water
- Use of reuse water in the washing of communal areas and vehicles

Selective Garbage collection

- Disposal of selective waste collectors in the company
- Partnership with selective collection and recycling institutions

Emission of polluting gases

- Constant maintenance of vehicles to mitigate the emission of polluting gases
